

AT A GLANCE

Pool designed by:

Integrated Pools by Canny

Pool built by:

Integrated Pools by Canny

Heating systems: Heatseeker Plus
by Supreme Heating

Cleaning systems: AstralPool RT
robotic pool cleaner

Filtration: AstralPool FG805 media
filter with Viron glass media, P320
low-energy variable speed pump,
Equilibrium chlorinator with
automatic pH and chlorine control,
Acqua Therepe minerals

Coping: Poured concrete in situ

Tiles: Sky-blue ceramic mosaic tiles

Pavers: Poured concrete in conjunction
with coping

Lighting: Spa Electrics WN950
multi-coloured LED

Fence: Custom-made frameless
glass and custom-made black
powdercoated steel fencing.

TRANQUIL ESCAPE

A semi-rural site in Victoria provides the perfect place
to refresh and rejuvenate after a busy work day

It's often difficult to find a sense of balance between work and home life in today's hectic world and with their increasingly busy lifestyles, these Cranbourne homeowners wanted to truly escape from work pressures when at home. The way for them to do this was with a modern, minimalist-style pool, part of their very own resort-style sanctuary.

Their beautiful block, in semi-rural Victoria, has a 2m slope from the rear of the property to the front of the pool. "The pool needed to be large to match with the space around it," says Integrated Pools by Canny, who built and designed the pool. "We also wanted it to be simple so that it didn't take anything away from the tranquil aspect. This project really demonstrates the great use of space that we don't often get to utilise with pool building in urban Melbourne."

With its dazzling sky-blue ceramic mosaic-tiled interior, the 13m-long rectangular design offers three parliament steps along the shallow end and a 2m shallow beach area across the deep end. A poured in situ concrete surround is a unique feature of the design.

Thanks to their property's peaceful outlook, these homeowners now have the ideal retreat in which to swim a few laps, relax and recharge.
